

Your data room checklist

M&A requires a reliable and trusted platform for doing due diligence. With the tools and capabilities that anticipate any roadblock dealmakers may face. Make sure your data room can help you execute your due diligence safely, efficiently, and successfully. Our checklist will help you pick the right data room for your deal.

Does your data room...

Your data room

Datasite

Technology

Enable you to launch your project in minutes versus hours?

Upload documents quickly and easily using drag-and-drop?

Permission users within a few clicks?

Manage your diligence request lists centrally directly within the data room?

Allow authorized users to email files directly into the project?

Support document categorizing, indexing, and searching across different languages and file types?

Manage complex Q&A processes from a centralized dashboard?

Offer automated and integrated redaction that detects personally identifiable redaction?

Capture actionable intelligence with customized analytics?

Provide a mobile app that enables Q&A, Trackers, Permissions, Analytics, and more to be managed on the go?

Offer document translation for multiple languages?
